Vol. 8. No.3. May-June 2009

## **Editorial**

Dear Readers,

Two of our current columns (Dave Thomas and Mahesh Dodani) focus on cloud computing. We are pleased to include a Guest Column dealing with design patterns. We appreciate the continuing work and columns by Douglas Lyon and John McGregor.

Our four feature papers include UML and test cases, UML and use cases and two papers dealing with Aspect-Oriented programming.

Hope you find this issue useful.

Richard Wiener
